THEATRES AUDITORIUMS PERFORMING ARTS

With live shows, you have just one shot to make the right impression. VLS boasts the expert team and tools to make every moment on stage shine brilliantly.

No matter your venue, budget or production, VLS helps you set the stage with customizable lighting solutions.

We know the needs of theatres and live shows are unique — it's where we got our start. With guidance from our team of experts and theatre industry veterans, and an extensive catalog of lighting effects and options, you can create precise lighting effects that enhance the visual impact of every performance.

SERVICES

Systems Integration & Programming

- Our experienced team works closely with lighting designers, specifiers and end users to understand the goals of a new lighting or rigging system.
- Our project management teams assists in the selection and design to provide a seamless, fully-functioning system.

Repair, Maintenance & Training

- Factory-authorized technicians keep your equipment running in top condition and can provide on-site training at your venue.
- Service centers stock popular and hard-to-locate parts for quick repair.

Rigging & Safety Inspections

- We provide and install curtains, track, manual rigging and motorized rigging.
- We perform ANSI Standard required annual safety inspections through our RigSafe program.
