

**CoPilot™**  
ARCHITECTURAL

TECHNOLOGY FOR  
VISUAL ENVIRONMENTS

# Architectural Controls Made Simple.

CoPilot ARCHITECTURAL gives you secured access to your system from anywhere in the world. Our user-friendly interface allows you to set, schedule, and modify displays right at your fingertips.

## Control Features

- ▶ Secured portal to access your system, certified under IEC 62443 standards
- ▶ Schedule designs for holidays and special events
- ▶ Create cue lists for multiple looks within a given time period
- ▶ Save preset designs
- ▶ Color picker tool
- ▶ Custom-designed portal can be used on desktop or mobile device
- ▶ Includes all service features from CoPilot Connect

Remote access allows you to control your system from anywhere in the world.

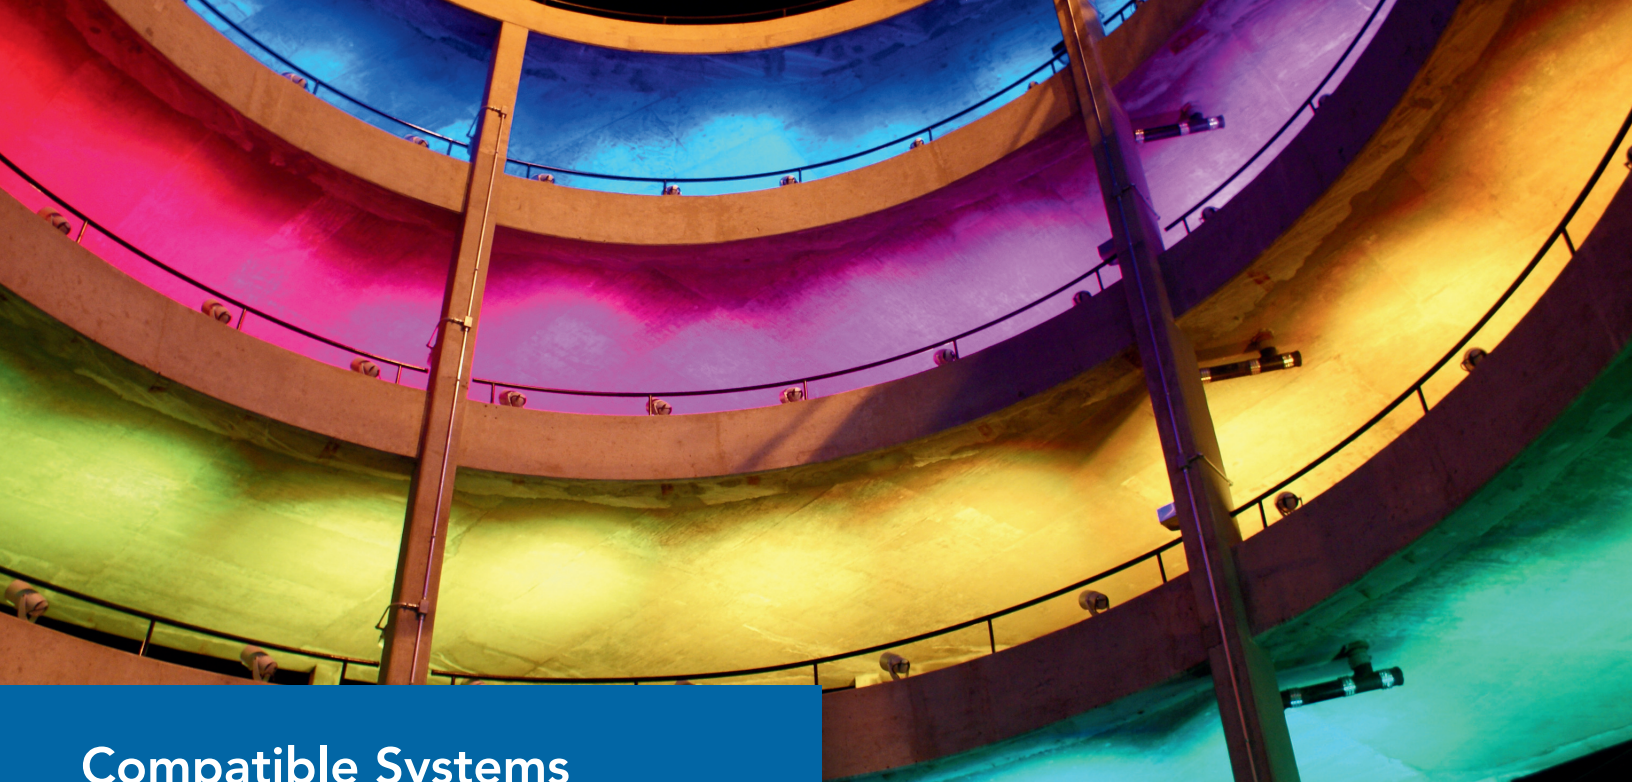

Our user-friendly interface makes it easy to schedule and design displays.

Enjoy access to our remote service team saving you time and money.

Our platform is certified under IEC 62443 standards to keep your data safe.
